**Abstract** v

**Acknowledgments** vii

**Chapter 1**

**Introduction to Ion Implantation and Dopant Diffusion** 1

1.1 Introduction ....1

1.2 Motivation for Studying the Effects of Implantation Damage ....1

1.3 Basic Mechanisms for Dopant Diffusion ....3

1.4 Scope and Organization ....6

**Chapter 2**

**The Role of Extended Defects During Semiconductor Processing** 7

2.1 Introduction ....7

2.2 Effects of Extended Defects During Thermal Oxidation ....8

2.2.1 Experimental Procedure ....8

2.2.2 Experimental Results ....9

2.2.3 Calculation of $D_I C_I^*$ at 900˚C ....11

2.2.4 Calculation of $\theta_{net}$ at 900˚C ....16

2.2.5 Model for dislocation loop growth ....17

2.2.6 Comparison of simulation results to experimental data at 900˚C ....22

2.2.7 Comparison of simulation results to experimental data at other temperatures ....30

2.2.8 Application of dislocation loop model during inert anneals ....34

2.2.9 Comparison of dislocation loop model to other models ....37

2.2.9.1 Orlowski's model ....38

2.2.9.2 Park's model ....38

2.3 Effects of Extended Defects After Additional Implant Damage ....40

2.3.1 Introduction....40
2.3.2 Experimental Procedure....41
2.3.3 Experimental Results....43
2.4 Summary....46

**Chapter 3**

**Effects of Implant Damage Above the Amorphization Threshold 49**
3.1 Introduction....49
3.2 Previous Experiments....50
3.2.1 Implant Damage Below the Amorphization Threshold....51
3.2.1.1 Effect of Implant Dose....52
3.2.1.2 Effect of Implant Energy....52
3.2.1.3 Time-Dependence....52
3.2.1.4 Temperature-Dependence....53
3.2.2 Implant Damage Above the Amorphization Threshold....53
3.3 Experimental Procedure....54
3.4 Experimental Results and Discussion....57
3.4.1 Channeling RBS Measurements....57
3.4.2 Bevel-and-Stain Measurements....57
3.4.3 SIMS Measurements....60
3.4.3.1 Effect of Implant Dose....62
3.4.3.2 Effect of Implant Energy....63
3.4.3.3 Time-Dependence....66
3.4.3.4 Temperature-Dependence....68
3.4.3.5 Dependence on Marker Layer Dose....68
3.4.3.6 RTA Compared to Furnace Anneals....71
3.5 Measurement of Inert Diffusivity....71
3.5.1 Experimental Procedure....71
3.5.2 Results....72
3.6 Summary....76

**Chapter 4**

**Modeling Implant Damage Enhanced Diffusion Using SUPREM-IV 79**
4.1 Introduction ....79
4.2 Exponential Solution ....80
4.3 Diffusion Models in SUPREM-IV ....82
4.3.1 Fermi Model ....82
4.3.2 Steady Model ....83
4.3.3 Two.Dim Model ....83
4.3.4 Full.Cpl Model ....85
4.4 Initial Point Defect Profiles ....86
4.5 Previous Models for IED ....90
4.5.1 Packan Model ....90
4.5.2 Park and Law Model ....95
4.6 Modeling the Two Time Transitions of IED ....103
4.6.1 Short-time Transition ....103
4.6.2 Long-time Transition ....107
4.6.3 Using Dislocation Loop Model to Mimic Cluster Dissolution ....109
4.6.3.1 Time-Dependence of Loop Dissolution ....110
4.6.3.2 Limiting Dissolution Rate ....112
4.6.3.3 Possible Physical Explanations for Limitation of the Dissolution Rate ....113
4.6.3.4 Comparison of Dissolution Model to Cowern s Cluster Model ....115
4.7 Summary ....117

**Chapter 5**

**Summary and Future Work 119**
5.1 Summary ....119
5.2 Future Work ....121

**Bibliography 123**
